EU deler ut 18.5 m. euro til åpne data-prosjekt.
Hvordan kan norske virksomheter få midler?

Public Open Data the largest pot of funding in 2018!

HOME	CONNECTING EUROPE FACILITY	HORIZON 2020	TEN-T	MARCO POLO	NEWS & EVENTS	ABOUT US
▶ PROJECTS						
○ CEF TRANSPORT						
CEF-TC-2018-1						
eIdentification (eID) & eSignature (indicative budget: €8 million)	22 February 2018					15 May 2018
CEF-TC-2018-1						
Europeana (indicative budget: €4 million)	22 February 2018					15 May 2018
CEF-TC-2018-1						
Safer Internet (indicative budget: €18 million)	22 February 2018					15 May 2018
CEF-TC-2018-2						
Automated Translation (indicative budget: €5 million)	May 2018					September 2018
CEF-TC-2018-2						
eDelivery (indicative budget: €0.5 million)	May 2018					September 2018
CEF-TC-2018-2						
eInvoicing (indicative budget: €5 million)	May 2018					September 2018
CEF-TC-2018-5						
Public Open Data (including HPC) (indicative budget: €18.5 million)	May 2018					November 2018
CEF-TC-2018-3						
Cyber Security (indicative budget: €13 million)	May 2018					November 2018
CEF-TC-2018-4						
eHealth (indicative budget: €5 million)	June 2018					November 2018
CEF-TC-2018-4						

2018 Actions broadened to reflect the need to:

- handle large volumes of dynamic data in the future (e.g. coming from satellites);
- enable public sector bodies to benefit from large-scale data analytics;
- gather tools and knowledge and provide practical support for sharing of public sector data and data held by private companies in areas of public interest
- facilitate the combination of the relevant data with open government data.

Generic Services

- Call open May. Deadline November.
- Grants up to 36 months
- 75% funding
- Objective 1: European Data Portal. 2 million. Min. 2 countries.
- Objective 2: Cross Border Services. 1.5 million. Min. 5 countries
- Objective 3: New access services to increase High Performance Computing and data capacities. 15 mill. Min. 1 or more countries.

Support re-use of data from EDP – 2 million

- Reuse should occur in combination with other datasets.
- Support the deployment of new services in innovation ecosystems on open platforms in large & important sectors.
- Include assessment plan which will provide a toolkit for national administrations. It will
 - contain standard procedures and software solutions
 - include harmonised questionnaires, key indicators, etc.
 - facilitate ex-post evaluation of the economic and social impacts of the re-use of PSI in Europe.

Cross Border Services – 1.5 million

- Provide access to harmonised thematic open dataset(s)
- Can be based on different data sources. Public, private, citizen, the crowd.
- Harmonised in terms of data content, level of detail, data structure, vocabularies and licence.
- Pan-European geographical coverage. (min. 5 countries)
- The view and download services must be made available through the EDP.
- Support priority areas - e.g. energy, climate, environmental protection, sustainable use of natural resources, emergency/disaster management.

Access services to increase HPC and data capacity of European Data Infrastructure – 15 million

- Collecting, storing and managing large (public or private) data sets of cross-European interest
- Developing and offering HPC-based services and tools for enabling their scalable exploitation and use
- May target:
 - the provisioning of HPC and data resources
 - cloud-based services to access such facilities and to process the data
- Must justify and show value of using supercomputing resources to analyse and process massive amounts of research and engineering open data resources.
- Expected beneficiaries:
 - large (public or private) data generators and data providers (e.g. from the health, space, environment, energy, transport or climate change sectors and smart cities, etc.)
 - Infrastructure providers that give access to data and supercomputing resources
 - Public or private developing cloud based services.

Way forward

- If you're interested let us know.
- More details will follow
- Will be EU information day webinar.
 - Vital to pay attention as new information will come.
- Difi will run a Norwegian webinar after the call is announced.
